- Worked on Case Module

Biggest risk
NA

Progress – Case Module

Accomplished Items

- Added the subject while sending the message to the user at the time of sending it from case details.

- Moved upload file control below the subject field in compose popup.

- Added the script to alert a message while trying to upload more than 10 files while composing the message.

- Integrated the functionality to create new patient at the time of adding a new case without losing the control over the steps.

Progress – Case Module

Accomplished Items

- At the time of creating the case search criterias will be carried forward to the create patient page.

- Flip the label Choose appointment date or arrange a callback while creating a case.

- List the cases on the basis of default location of logged in user.

- Added the script to include First name and last name while adding the user to the case.
